

12 Volt GC Cooling Fans

• Brand new, General Cab cooling fans. Use for radiators, oil coolers, air conditioning condensers, etc. Applications range from bulldozers and skid loaders to street rods and race cars. Available in 4 different motor ratings, 8 different diameters and both puller (draw air thru heat exchanger, more efficient design) and pusher (blow air thru heat exchanger) types. Airflow ranges from 270 to over 2400 CFM. IP-68 (waterproof). Made in Italy.
